

NON-WIRES ALTERNATIVES SYMPOSIUM

Sponsored by the NW Energy Coalition with the Bonneville Power Administration

Friday, November 7 from 2:30 p.m. – 5:00 p.m.
Labor Temple, 2800 1st Avenue, #140 – Seattle, Wash.

The purpose of the symposium is to provide information to the public interest group community and the general public on BPA's non-transmission alternatives initiative and the development of methodology for calculating available transfer capacity.

Meeting will be moderated by **Nancy Hirsh**, Policy Director, NW Energy Coalition

Agenda:

1. Background and Purpose – **Carolyn Whitney**, TBL Public Affairs Manager, BPA
2. Observation on the Role of the Roundtable – **Ralph Cavanagh**, Natural Resources Defense Council and Member, BPA Non-Construction Alternatives Roundtable
3. Review of the 2003 Work
 - Screening Criteria and Detailed Studies – **Brian Silverstein**, Manager of Network Planning, BPA
 - Non-wires Technologies **David Le** Public Utilities Specialist, BPA Energy Efficiency
 - Institutional Barriers – **Brian Silverstein**
 - Pilot Projects – **David Le**
4. Next Steps – **Carolyn Whitney**
5. Questions from panel moderator with responses from panel.
6. Questions from the audience
7. Available Transmission Capacity Analysis – **Brian Silverstein**
8. Wind Update – **Steve Enyeart**, Customer Service Engineering, BPA
9. Questions from the audience

Reception will follow the panel.
